<https://jww.netlify.app/>

I am a 16 year old student who is going into Sixth Form at Newton Abbot College where I am going to study Computer Science, Media Studies and Business Studies at A-level.

I love designing and building websites and constantly learning new things in the process.

PROJECTS

Martin Building Services

I am working with Martin creating a website for his building company, designing this site in Figma and building it using TailwindCSS. I will be ensuring that his website is SEO optimised and I will be using the Contentful API to allow him to use their CMS to keep his projects up to date without having to touch the code, while still giving me complete flexibility.

Languages and Technologies

- HTML
- CSS
 - Tailwind
 - Bootstrap
- Javascript
 - React

AWARDS AND ACHIEVEMENTS

Duke of Edinburgh (DOFE)

I completed the Bronze DOFE, volunteering at Kingskerswell Cubs, playing basketball for my physical activity and attending a coding club for the skills side of the award.

IDEA

IDEA is the digital version of the DOFE where you learn digital skills to achieve the award.

Silver Leadership Award

At school I took part in a leadership course where at the end you have to give a presentation and I achieved silver.

School Prefect

As a Prefect I did gate duty, greeting students in the mornings, created digital assemblies due to Covid and helped with open evenings for primary school students.

Academic Awards

I was awarded Best in Subject for Business, Achievement for Computer Science, as well as Best Improvement for Computer Science and finally Best Effort in History.
